

CITATION CJ4 GEN3

BY TEXTRON AVIATION

CESSNA CITATION CJ4 GEN3

FLY WITH THE FUTURE

Range is based on preliminary performance data and is subject to change. Range map assumes HSC power, 85% probability winds and four passengers. Missions are based on Citation CJ4 Gen2 data and assumes four passengers at HSC, 85% probability winds, ISA with NBAA IFR reserves (100 nm alternate).

VIEW CJ4 GEN3 RANGE MAP

SEAMLESS DESIGN, INTUITIVE COMMAND

The new Citation® CJ4® Gen3™ jet is what flight is meant to be: effortless, intuitive and powerful. Experience aviation rethought and reimagined, creating a seamless flow in every phase of your flight. Never miss a beat with best-in-class range and a common 525 type rating. Sleek, integrated features provide exceptional precision and a greater sense of control, so you're free to focus on the journey ahead.

SPECIFICATIONS

	Max Range*	2,165 nm	4,010 km
	Max Cruise Speed	451 ktas	835 km/h
	Max Occupants		11
	Useful Load	6,930 lb	3,152 kg

*Performance data based on a standard day with zero wind. Field performance assumes a level, dry, paved runway, sea level at MTOW. Range based on a ferry mission at LRC with NBAA IFR reserves (100 nm alternate).

ELEVATE YOUR EXPECTATIONS

SEE OUR INTERIOR
SCHEME OPTIONS

ENHANCE YOUR TRAVEL

From skylight views to elegant finishes, the Citation® CJ4® Gen3™ jet interior surrounds you with comfort. In addition to the six available interior schemes, we offer custom spec sessions with interior design professionals to create your perfect aircraft. Power your productivity with the wireless Cabin Management System (CMS) to control cabin lighting, temperature and window shades. Enhanced cabin acoustics raise the bar for comfort as well, allowing you to focus on what matters.

Luggage is more than just an afterthought with this jet. Enjoy a generous baggage capacity of 1,000 pounds, along with a folding side-facing seat option. With an additional 50 pounds of storage per side-facing seat, you'll never have to leave anything behind.

DESIGNED TO POWER YOUR JOURNEY

EFFORTLESS PRECISION AT EVERY STAGE OF FLIGHT

Now equipped with the cutting-edge Garmin® G3000® PRIME avionics suite, the new Citation® CJ4® Gen3™ jet allows you to move seamlessly through the entire Citation® light jet fleet. Illuminated by newly upgraded flight deck lighting for enhanced visibility, the fully touchscreen platform with enhanced processing and resolution brings you simplified, streamlined control. Fully integrated Garmin® autothrottles provide exceptional levels of precision and Garmin® Emergency Autoland brings new levels of confidence to your journey.

THE ULTIMATE SINGLE-PILOT JET

Standard Features:

- Garmin® Synthetic Vision Technology (SVT™)
- Full flight regime autothrottles
- Garmin® Emergency Autoland (EAL)
- Lithium ion battery

Optional Features:

- Predictive wind shear
- FANS 1/A+ CPDLC capable
- VHF Datalink Radio

YOUR OEM EXPERT SUPPORT

Maintaining a global fleet requires worldwide coordination and universal access to the knowledge of experienced representatives. With you as our focus, we are fully committed to supporting your Citation® CJ4® Gen3™ aircraft with general aviation's largest global aftermarket network. You can count on Textron Aviation to be by your side with superior parts availability, competitive pricing and a robust distribution system. The caliber of support you receive is always efficient, reliable and available 24 hours a day.

Highlights From Our Global Aftermarket Network:

- 20 company-owned service centers, with over 30 mobile service and line station locations globally.
- A robust e-Commerce platform to make parts purchasing quick and easy.
- Over 99% same-day ship rate for in-stock parts.
- ProAdvantage® programs to help with cost management, ensure price protection and optimize aircraft resale value.

THE FUTURE OF FLIGHT

At Textron Aviation, we prioritize efficiency and innovation in manufacturing and energy procurement because we're strongly committed to sustainability. Since 2022, all our Kansas facilities have been powered by 100% renewable wind energy. We're utilizing more environmentally friendly materials for aircraft interiors. And we're offering turbine aircraft that can operate with Sustainable Aviation Fuel (SAF), reducing our carbon footprint and helping contribute to a sustainable future for the planet.
