EQUAL PARTS UTILITY AND COMFORT

The Cessna® Turbo Stationair® HD aircraft is the epitome of versatility. Pushing the limits of what is possible, this aircraft doesn't make you choose between necessity and aspiration. Comfort meets function in the updated Cessna® Turbo Stationair® HD piston. Upgrades include comfortable seating and interior convenience features, instrument panel and new, modern exterior schemes. This highly adaptable aircraft expands your missions to take you almost anywhere, with rough, short-field capabilities and optional floats configuration.

SPECIFICATIONS

	Max Range	703 nm	1,302 km
	Max Cruise Speed	161 ktas	298 km/h
	Max Occupants		6
	Useful Load	1,441 lb	654 kg
	Takeoff Distance	1,970 ft	600 m

Performance data based on a standard day with zero wind. Field performance assumes a level, dry, paved runway, sea level at MTOW. Range based on a ferry mission at LRC with VFR 45 minutes reserve.

UPDATED FLIGHT DECK

The Turbo Stationair® HD piston is powered by the latest technology in integrated cockpit avionics, the Garmin® G1000® NXi. The Garmin® GI 275 electronic standby lets you keep the classic look of your standby instruments while upgrading to a modern and sleek glass touchscreen display.

THE FUTURE OF FLIGHT

At Textron Aviation, we prioritize efficiency and innovation in manufacturing and energy procurement because we're strongly committed to sustainability. Since 2022, all our Kansas facilities have been powered by 100% renewable wind energy. We're utilizing more environmentally friendly materials for aircraft interiors. And we're offering turbine aircraft that can operate with Sustainable Aviation Fuel (SAF), reducing our carbon footprint and helping contribute to a sustainable future for the planet.
