Since its introduction, the Cessna® Caravan® turboprop has consistently defined versatility and performance, keeping you ahead of the competition. Operators in the world’s most demanding environments immediately adopted the rugged, dependable turboprop and have been rewarded with unparalleled dispatch reliability. The powerful, efficient, ultra-dependable 675-horsepower PT6A-114A turbine engine gives the Caravan its exceptional payload capabilities. On top of more than 30 years of proven capability comes even greater value with the Caravan’s factory warranty, parts availability and lower direct operating costs.

THE ORIGINAL TRAILBLAZER

Max Range
1,070 nm

Max Cruise Speed
186 ktas

Useful Load
3,305 lb

Max Passengers
14 people

Takeoff Ground Roll
1,160 ft
PLENTY OF MUSCLE
Higher cruise speed, payload and range thanks to the ultra-efficient 675-shp Pratt & Whitney Canada PT6A-114A engine.

ROUGH-FIELD READY
Large, rough-field tires and rugged landing gear allow you to operate on grass, gravel or even more rudimentary runways.

EASY BOARDING
The Caravan Airstair facilitates easy entry and exit through the right side of the aircraft and saves significant weight over other designs.

GREATER CARGO CAPACITY
Wide loading doors allow easy access, and the optional cargo pod adds 84 cubic feet of storage space.

ICE PROTECTION
Certified with the optional TKS Ice Protection system for flight into known icing.

THE RELIABLE MULTITASKER
Cruise faster, carry more payload and reach your destination ahead of the competition. Economical and dependable single-engine turboprop performance with proven dispatch reliability allows the Caravan to adapt to a wide variety of missions.
Enjoy the spacious cockpit powered by the latest technology — Garmin™ G1000™ NXi avionics suite. Managing the flight deck has never been easier with an improved graphical interface, more powerful hardware, higher-resolution displays and added functionality for increased situational awareness.

CUSTOMIZED COMFORT

Customize your Caravan cabin configuration to match changing mission profiles and to optimize revenue on every flight. Improved cabin comfort comes from highly ergonomic seats and luxury materials, which provide a stain-resistant and antimicrobial finish to this durable yet versatile interior.

CANYON Interior

The Oasis Executive Interior is the perfect blend of smart design, precision craftsmanship and quality materials for luxury travel combined with efficient productivity. Oasis offers folding tables, flat-panel video displays, a 110-volt power outlet and other convenience features.

THE CABIN IS YOUR CANVAS

Create the picture of your perfect cabin from a palette of new interior collections. The classic neutral khaki of Savanna is contemporary and clean, while the high-contrast black and khaki of Canyon is warm and sophisticated.

OASIS – PRODUCTIVE LUXURY
Rugged, economical and versatile, Caravan turboprops are unsurpassed as special missions aircraft. Unmatched fuel efficiency and low operating costs keep you aloft longer to meet your mission needs. The Caravan is capable of performing life-critical missions in remote locations, flying in adverse environments and operating on unimproved airstrips. Its high-wing design provides excellent ground visibility and a stable platform for intelligence gathering. We can configure your Caravan specifically to accommodate sophisticated ISR systems, video equipment, still photography and infrared cameras.
The Caravan makes its own business case. Its legendary reliability ensures that you stay on schedule, not on the tarmac. The Caravan takes to the water with uncompromising speed and payload. Like all Caravan models, the Amphibian is both easy and economical to maintain and far more fuel-efficient than its competitors. Regional airlines and charter services serving low-volume routes or traveling to remote destinations count on the Caravan to deliver more payload and serve more customers for healthier revenue on every trip.
CLASS-LEADING PERFORMER

The Cessna Caravan influenced an entire category of utility turboprop aircraft. With its class-leading range, a max cruise speed of 186 knots and useful load of 3,305 pounds, the rugged, versatile Caravan is the preferred aircraft of special missions operations, regional carriers with remote destinations and outdoorsmen alike.

TECHNICAL SUPPORT AND PARTS ARE AT YOUR FINGERTIPS

Textron Aviation’s extensive engineering and manufacturing expertise provide you with a worldwide network of knowledgeable technical support representatives backed by more than 30 years of aviation experience.

Our parts distribution network is the largest in the world, able to supply you with everything from batteries and tires to parts for your aircraft. We understand optimizing the operational cost of your aircraft is important and support you by offering timely and efficient delivery of the highest quality aircraft parts and components.

Count on us to be there for the full life of your aircraft.

service.txtav.com
Textron Aviation brings smart innovation to the market – leveraging the latest technology in our industry-leading Beechcraft®, Cessna® and Hawker® aircraft – a cornerstone of our more than 90 years of performance. Together, Cessna and Beechcraft account for more than half of all general aviation aircraft flying, having delivered more than 250,000 aircraft that exceed 100 million flight hours and operate across the globe in more than 143 countries. In the past decade, Textron Aviation has received certification for and delivered 35 new aircraft products. From Citation® jets, the world’s best-selling business jets, to the class-leading King Air® and Caravan turboprops to the Cessna TTx®, the advanced piston performer – Textron Aviation leads the industry with the broadest product portfolio and the most capable aircraft service network in the world.
