

CITATION LATITUDE

MORE FLEXIBILITY WITH DOUBLE CLUB SEATING

CITATION LATITUDE

The Citation Latitude® aircraft is the first business jet to combine a flat-floor, stand-up cabin with a midsize price and a compelling operating cost advantage. The spacious interior is internet-equipped, giving you plenty of time for productivity or leisure on four-passenger trips of up to 2,700 nautical miles. Touch-screen Garmin™ G5000™ avionics revolutionize the way pilots access flight data, navigate through traffic, perform surveillance and utilize communication systems.

GALLEY WITH SIDE-FACING SEAT

DOUBLE CLUB SEATING

The Latitude offers multiple cabin configurations including a double club. Within the double club line, there are two cabin designs to choose from.

Galley With Side-facing Seat

This option allows extra room for additional team members.

Extended Galley

This arrangement is designed for greater storage capacity.

Both of the Latitude's cabin designs include lavatory amenities such as a storage closet and a space-efficient swinging door. On top of all the latest features, the Latitude is backed by factory-direct service and business aviation's farthest-reaching support network.

Contact your **Textron Aviation sales representative** to see the Citation Latitude double club for yourself.
