gogo

Now available on Citation Latitude® and Citation Longitude® aircraft, Gogo Galileo™ delivers high-speed global internet connectivity for productivity, entertainment and communication throughout every mission. As the first OEM to offer high-speed global internet connectivity as a no-charge option in the midsize and super-midsize jet categories, Textron Aviation is helping operators stay connected wherever they fly.

GOGO HDX ANTENNA

TRUE WORLDWIDE COVERAGE

Total global connectivity powered by low-earth orbit satellites, helping passengers stay connected across domestic and international missions.

CONSISTENT PERFORMANCE

Reliable connectivity with low latency and consistent performance from taxi to touchdown.

LOWER OPERATING COSTS

For global operators, connectivity costs can be significantly lower compared to competing LEO connectivity offerings.

$150,000+ IN SAVINGS

POTENTIAL ANNUAL CONNECTIVITY SAVINGS VERSUS A LEADING LEO COMPETITOR

**Compare at 40 GB per month: Textron Aviation pricing with HDX is $3,000/month (global) vs competitor pricing at $7,750/month (regional use only) across 36 months equals $171,000 in savings.*
